Fire in the original building of the Strøm Nordic spa Mont-St-Hilaire

Dear friends of Strøm, clients, employees and residents of Mont-St-Hilaire,

Present situation at the Strøm Nordic spa Mont-St-Hilaire

Today December 26, 2016 at around 9 am a fire started in a dry sauna. The cause of the fire seems to be an electrical failure. Luckily no one got hurt.

The firefighters are presently working to get the fire under control. The new section seems to be safe from the fire. A reconstruction of the reception and the massage and treatment section that were situated in the main building will be done in 2017.
