

NORD

LABORATOIRE CULINAIRE

The Laboratoire
culinaire

Where the North begins.

This is where Nordic inspiration, alchemy of flavours and fresh local produce come together in a waltz led by chef Raphaël Podlasiewicz and his brigade.

These dishes, skillfully crafted and carefully developed, are being served for the first time. Those that are a great success will be added to the menu in Strøm's Nord restaurants.

As food is an essential component of well-being, great care is taken in selecting healthy, nourishing, diverse and local ingredients, and in preparing recipes that stimulate the senses and awaken the spirit.

Raphaël Podlasiewicz
